

Déjà un mois !

Cela fait déjà plus d'un mois que nos six stagiaires anglais ont posé leurs valises dans notre établissement et que l'anglais résonne en classe, dans les couloirs, la cour de récréation et même la cantine !

Mais quel est donc le premier ressenti de nos stagiaires vis-à-vis de ce projet ? Nous avons demandé aux six concernés comment ce premier mois s'était passé. Ci-dessous un aperçu de leurs retours :

« I have really enjoyed working with my GS and CP classes. Everyone has been so kind and welcoming and I am impressed at how keen the students are to learn English! The pupils are lovely and I particularly like how they say hello to me every morning! »

« My first few weeks of teaching have been really enjoyable, with both staff and the students making me feel very comfortable here. I am surprised at how competitive the children are during games and I admire how much they want to succeed. »

« I have really enjoyed my first weeks at the school. All of the teachers and pupils have been very welcoming! I have particularly enjoyed running the sports lessons and also the trip to the Grand Palais. »

« I have settled in well in the first few weeks at Ecole Pascal. The students are all very friendly and the staff are very helpful. I am pleasantly surprised at the level of English used by many pupils and I have enjoyed teaching students about new topics and seeing what knowledge they already have about many things. »

« The students are all so friendly and keen to learn English. I also really love it when people recognise me and say hello in the corridor. I am encouraged by how much students enjoy activities and how they prepare for these activities, by asking me questions! I am really looking forward to seeing the students develop their English skills and confidence over the year. »

« I have really enjoyed my first few weeks. All of the teachers and the students are really kind. The children's level of English has surprised me because it is a higher level than I was anticipating. I have really enjoyed the challenge of learning new historical topics myself in order to help teach the children. »
